

MICKELL GUNNESSLAL

ENVIRONMENTAL REGULATORY & NOISE MANAGEMENT PROFESSIONAL

Trinidad & Tobago | +1 868 308 9562 | mgunnesslal@hotmail.com

PROFESSIONAL PROFILE

Environmental regulatory professional with 11+ years of experience supporting environmental permitting, compliance, policy implementation and stakeholder engagement. Currently serving as Technical Officer II with the Environmental Management Authority, with specialized experience in environmental noise regulation, Noise Pollution Control Rules, 2001 (NPCR), Certificate of Environmental Clearance (CEC) processes, Environmental Impact Assessment (EIA) review, field noise monitoring, GIS and remote sensing. Recognized for providing practical technical guidance, translating regulatory requirements into clear actions, and progressing through increasingly responsible roles within the Authority.

CORE EXPERTISE

Environmental Regulatory Compliance	Environmental Noise Management	Permit & Application Review
EIA Technical Review	GIS & Remote Sensing	Stakeholder & Technical Advisory

PROFESSIONAL EXPERIENCE

Technical Officer II

2025 - Present

Environmental Management Authority

- Provide technical input on environmental policy and regulatory changes, including proposed revisions to the Noise Pollution Control Rules, 2001 (NPCR).
- Review and process Noise Variation Permit applications and provide technical guidance to support regulatory decision-making.
- Review Environmental Impact Assessments (EIAs), with emphasis on environmental noise impacts, mitigation measures and compliance.
- Conduct field noise monitoring and assess monitoring results against NPCR requirements.
- Evaluate noise data, technical reports and supporting documentation to develop regulatory assessments and recommendations.
- Advise stakeholders on interpretation and application of noise pollution regulations and compliance requirements.

Environmental Programme Officer I

2022 - 2025

Environmental Management Authority

- Processed Certificate of Environmental Clearance (CEC) applications and guided applicants through regulatory requirements and submission procedures.
- Developed sector-specific templates to support consistent processing of CEC applications.
- Supported technical reviews of EIAs and environmental noise monitoring data.
- Contributed to the organization's Annual Report and represented the Authority at workshops and stakeholder sensitization activities.

SELECTED CONTRIBUTIONS

- Progressed through three increasingly responsible roles at the Environmental Management Authority, culminating in appointment as Technical Officer II in 2025.
- Contributed technical expertise to the review and proposed revision of the Noise Pollution Control Rules, 2001.
- Assisted with implementation of the CEC Application online platform.
- Developed sector-specific templates to support consistent processing of CEC applications.

PROFESSIONAL EXPERIENCE - CONTINUED

Environmental Programme Assistant

2015 - 2021

Environmental Management Authority

- Processed Noise Variation applications and maintained the National Noise Register.
- Addressed public enquiries and concerns related to the Noise Pollution Control Rules.
- Prepared weekly recommendations to the Magistrates' Court regarding Occasional Bar Licences.
- Produced noise buffer maps for locations across Trinidad and Tobago using GIS tools.
- Led internal project teams and engaged stakeholders on environmental regulatory matters.
