

MICKELL GUNNESSLAL

ENVIRONMENTAL MANAGEMENT & REGULATORY PROFESSIONAL

Trinidad & Tobago | +1 868 308 9562 | mgunnesslal@hotmail.com

PROFESSIONAL PROFILE

Environmental management professional with 11+ years of experience in regulatory compliance, environmental permitting, EIA review, field monitoring, stakeholder engagement and GIS/remote sensing. Currently Technical Officer II with the Environmental Management Authority, combining policy and regulatory support with specialized environmental noise expertise. Holds an MSc in Integrated Coastal and Ocean Management, a BSc in Environmental Management and Biology, and the NEBOSH National General Certificate in Occupational Health and Safety.

CORE EXPERTISE

Environmental Management	Regulatory & Policy Support	EIA & Environmental Permitting
Environmental Monitoring	GIS & Remote Sensing	Stakeholder Engagement

PROFESSIONAL EXPERIENCE

Technical Officer II

2025 - Present

Environmental Management Authority

- Provide technical input on environmental policy and regulatory changes, including proposed revisions to national noise pollution control requirements.
- Review environmental permit applications, EIAs, monitoring data and technical documentation to support regulatory decisions.
- Conduct field environmental noise monitoring and assess compliance with applicable regulatory requirements.
- Develop technical assessments and recommendations based on monitoring results and supporting documentation.
- Provide regulatory interpretation and technical guidance to stakeholders.

Environmental Programme Officer I

2022 - 2025

Environmental Management Authority

- Processed CEC applications and guided applicants through environmental clearance requirements.
- Developed sector-specific templates to support consistent environmental application processing.
- Supported technical reviews of EIAs and environmental monitoring data.
- Contributed to annual reporting and represented the Authority at workshops and external stakeholder sensitization activities.

SELECTED PROFESSIONAL CONTRIBUTIONS

- Advanced through three progressively responsible positions at the Environmental Management Authority.
- Contributed technical expertise to proposed revision of the Noise Pollution Control Rules, 2001.
- Assisted with implementation of the CEC Application online platform and development of sector-specific application templates.
- Represented the Authority in workshops and stakeholder sensitization activities.

PROFESSIONAL EXPERIENCE - CONTINUED

Environmental Programme Assistant

2015 - 2021

Environmental Management Authority

- Processed environmental noise permit applications and maintained the National Noise Register.
- Addressed public enquiries relating to environmental noise regulation and engaged stakeholders on compliance requirements.
- Prepared weekly technical recommendations to the Magistrates' Court regarding Occasional Bar Licences.
- Produced GIS-based noise buffer maps across Trinidad and Tobago and led internal project teams.

EDUCATION

Master of Science (MSc), Integrated Coastal and Ocean Management

2025

University of Trinidad and Tobago

Bachelor of Science (BSc), Environmental Management and Biology

2012

The University of the West Indies

PROFESSIONAL CERTIFICATIONS & DEVELOPMENT

- NEBOSH National General Certificate in Occupational Health and Safety - CHESS College (2015)
- Certificate in the Principles of Acoustic Engineering - Udemy
- UAS - Managing the Impacts of Underwater Noise - The Academy (DHI)
- Certificate in the Use of T3M Quest SoundPRO Sound Level Meter and TSI DustTrak DRX Aerosol Monitor - Environmental Management Authority
- Introduction to Air Dispersal Modeling; Certificate in Conflict Resolution
- Google Earth Engine for Mapping Land Degradation; Remote Sensing Applications in Flood Management; selected ESRI geospatial training

TECHNICAL & PROFESSIONAL SKILLS

Environmental: Environmental management, regulatory compliance, EIA review, environmental permitting, field monitoring
Policy & Stakeholders: Regulatory interpretation, technical advisory, stakeholder engagement, workshops, technical writing
GIS & Remote Sensing: ArcGIS Desktop, ArcGIS Pro, QGIS, Google Earth Engine, Google Colab
Data & Digital: Microsoft Office Suite, data analysis, R Studio (basic), Python (basic), HTML/CSS/JavaScript (basic)

ADDITIONAL EXPERIENCE

Health and Safety Officer | First Response Services | 2014

Graduate Trainee | Ministry of Environment and Water Resources - Environmental Policy and Planning Division | 2014

Information Technology Assistant - On-the-Job Training Programme | Clarke Road Hindu School | 2012 - 2014

Clerical Assistant - On-the-Job Training Programme | The Penal/Debe Regional Corporation | 2009 - 2010
